Oakdene Park Playground Opening

KENTVILLE, NOVA SCOTIA –

The Town of Kentville is thrilled to announce the grand opening of the new Oakdene Park Adventure Playground. The original concepts for this regional facility came from students at the KCA school, with the final design coming to fruition thanks to Cobequid Consulting.

“The Oakdene Park Adventure Playground is one of a kind in Atlantic Canada, and we are so pleased to be a part of it. Creating a space for children to explore and be creative is paramount to this park,” says Garnet McLaughlin, Owner of Cobequid Consulting “and incorporating the Oakdene Serpent into the design has allowed our imaginations to run wild!”

“This playground allows children to decide how they want to interact and play with its design, and will undoubtedly spark imagination” explains Rachel Bedingfield, Director of Parks and Recreation for the Town of Kentville. “A cave to hide in, a mud kitchen to create masterpieces, and a towering zip-line were all items that kids told us they wanted when asked about their ideal playground”

This playground is one part of the larger Oakdene project that has seen the addition of an outdoor stage for live music and theatre, an outdoor basketball court, and additional parking. “This is truly an award winning space for an award winning community” said Kentville Mayor Sandra Snow.

The newly constructed playground will officially open on Saturday, June 23rd as part of the annual Oakdene Days celebrations held jointly with the Town of Kentville and the Rotary Club of Kentville.
