- c) Temporary buildings, structure, or signs for special occasions, public events, or holidays provided that such building, structure or sign remains in place no more than 10 days following the end of the special occasion, public event or holiday; and
- d) Minor accessory structures such as clothes poles, flag poles, garden trellises, arbors, playground equipment, monuments, interpretative displays, and other similar structures. These miscellaneous structures shall be permitted to be located in any part of any yard except within the corner vision triangle of any corner.

3.5 Costs for Advertising

- a) Any person who wishes to obtain an amendment or revision to this By-law or who wishes to make application to enter into a development agreement or amend a development agreement shall submit an application in writing to the Clerk of the Town of Kentville.
- b) The application shall state an address for service.
- c) The applicant shall deposit with the Clerk an amount estimated by the Clerk to be sufficient to pay the cost of advertising. Where Council decides not to proceed with the application, the deposit shall be returned to the applicant.
- d) After the advertising required has been completed, the applicant shall pay to the Clerk any additional amount necessary to defray the cost of advertising or if there is a surplus, the Clerk shall refund the same to the applicant.

3.6 Violation

Any person who violates a provision of this By-law shall be subject to prosecution as provided for under Section 266 of the Municipal Government Act of Nova Scotia.

PART 4 General Provisions

4.1 General Provisions for All Zones

4.1.1 Accessory Buildings and Structures

- a) Accessory buildings and structures shall only support a use which is subordinate or incidental to the main use or building that is located on the same lot;
- b) Accessory buildings shall not be used for human habitation, except in accordance with Section 5.1.1 (g);
- c) Accessory buildings shall not be located within the required front yard or flankage yard of the lot;
- d) Accessory buildings shall not be built closer to the side lot line or rear lot line than 4 ft (1.22 m) except that:
 - i. Common semi-detached garages may be erected on the mutual side lot line
- e) Accessory buildings shall not be built within 6 ft (1.82 m) of the main building or any other accessory building;
- f) Accessory buildings shall not exceed 21 ft (6.40 m) in height;
- g) No more than 2 accessory buildings shall be permitted on any one lot in any residential zone;
- h) Accessory buildings shall not exceed 15% of the total lot area, up to a maximum gross floor area of 1000 ft² in any residential zone; and
- i) Accessory buildings shall not be an automobile, trailer, shipping container or similar type of vehicle or structure or portion thereof whether or not same is mounted on wheels or a foundation.

4.1.2 Accessory Uses Permitted

Where this By-law provides that any land may be used or a building or structure may be erected or used for a purpose, the purpose includes any use accessory thereof.

4.1.3 Amenity Space

- a) All new Multi-Unit Developments containing four or more dwelling units shall provide On-Site Amenity Space in accordance with the following requirements:

Bachelor and One Bedroom	200 ft ² per unit	18.58 m ² per unit
Two bedroom	225 ft ² per unit	20.90 m ² per unit

- d) Amenity space shall be waived for all residential conversions.

4.1.4 Alteration of Land

Alteration to the level of land resulting from any excavation or filling activity, for purpose of the preparation of the land for development or in conjunction with any permitted development which involves the removal or addition of more than 20 yd² (15.3 m²) of material from the site shall require a Development Permit prior to commencement and shall comply with the following:

- a) All excavation and filling activities for which a Development Permit is required be wholly contained within the property affected;
- b) No alteration in the level of land resulting from any excavation or filling for the purpose of preparation of land for development for which a Development Permit is required shall cause water to shed to an adjacent property;
 - i. Notwithstanding 4.1.4(b) water may be shed to any existing ditch, culvert, watercourse, or stormwater drainage system upon approval from the Town Engineer. and
- c) An approved site drainage plan may be required by the Development Officer and approved by the Town Engineer prior to the granting of a Development Permit.

4.1.5 Building to be Moved

No building shall be moved within or into the Town of Kentville until a development permit has been issued.

4.1.6 Compliance with Other By-laws

Nothing in this By-law shall exempt any person from complying with the requirements of the Building By-law or any other by-law in force within the Town of Kentville, or from obtaining any license, permission, permit, authority or approval required by any other By-law of the Town of Kentville.

4.1.7 Conformity with Existing Setbacks

Notwithstanding anything else in this By-law, in any zone, structures built between existing buildings within 200 ft (60.96 m) on the same block may be built with a setback equal to the average setback of the adjacent buildings, but this depth shall not be less than 10 ft (3.05 m) from the front lot line and need be no greater than setback regulations prescribed in the zone in which it is situated.

4.1.8 Day Lighting Triangle

On a corner lot where yards are required, no fence, sign, hedge, shrub, bush or tree or any other structure, vehicle or vegetation shall be erected, placed or permitted to grow to a height greater than 3 ft (0.91 m) above grade within a day lighting triangle.

4.1.9 Development Agreements

The following developments shall be considered only by development agreements in accordance with Policies IM-10 and IM-11 of the Municipal Planning Strategy:

- a) Mini-Home Parks/Land Leased Communities in the Large Lot Residential (R5) Zone;
- b) The change in use of a non-conforming use of land or a non-conforming use in a structure, to another non-conforming use; and
- c) The expansion, enlargement or alteration of a nonconforming structure.

4.1.10 Existing Buildings

Where a building has been erected on or before the effective date of this By-law on a lot having less than the minimum frontage or area, or having less than the minimum setback or side yard or rear yard required by this By-law, the building may be enlarged, reconstructed, repaired, or renovated provided that:

- a) the enlargement, reconstruction, repair, or renovation does not further reduce the front yard or side yard or rear yard that does not conform to this By-law; and
- b) all other applicable provisions of this By-law are satisfied.

4.1.11 Existing Lots without Frontage

Notwithstanding anything else in this By-law an existing lot which does not have frontage, but which otherwise has legal access to a public street, may be used for a purpose permitted in the zone in which the lot is located and a building may be erected on the lot provided that all other requirements of this By-law are satisfied.

4.1.12 Existing Undersized Lots

- a) Notwithstanding minimum lot area and frontage requirements established elsewhere in this By-law, a lot having less than the minimum lot frontage lot area or both, and:
 - i. Was in existence on or before April 16, 1987 the date of validation of real property transactions under the Municipal Government Act;
 - ii. Having been expanded or made larger, is nonetheless below the minimum requirements;
or
 - iii. Was created by the action of the variance provisions of Section 235 of the Municipal Government Act

may be used for a purpose permitted in the zone in which the lot is located, and a structure may be erected on the lot provided that all other applicable provisions of this By-law are satisfied.

4.1.13 Fencing

- a) Fences shall be limited to a maximum height of 12 ft (3.66 m) except in a Residential Zone where the maximum height shall be 8 ft (2.43 m)
- b) All fences shall conform to the following general requirements:
 - i. fences within the front yard shall not be more than 4 ft (1.21 m) in height;
 - ii. on corner lots, day lighting triangle height restrictions shall apply;
 - iii. fences cannot be electrified;
 - iv. fences with supporting structures shall be constructed so that the structural members face inward, away from all abutting properties and public streets; and
 - v. fences shall not contain barbed wire unless erected in conjunction with a permitted industrial or commercial use.

4.1.14 Frontage on a Street

All new lots to be approved on a final plan of subdivision shall abut a public street.

4.1.15 Habitation of Vehicles

- a) No automobile, transportation truck, bus, coach or shipping container shall be used for human habitation.
- b) Notwithstanding 4.1.15(a), a recreational vehicle or campers may be used for human habitation, and no development permit shall be required provided:
 - i. such vehicle is not connected to town services;
 - ii. such use does not extend longer than 60 days within a 12-month period; and
 - iii. such use does not occur within the required minimum front yard, side yard or flankage yard of the lot.

4.1.16 Illumination

- a) No person shall erect any illuminated sign or illuminate an area outside any building unless such illumination is directed away from adjoining properties and any adjacent streets.
- b) Commercial signage within or abutting a Residential Zone or designation shall only be illuminated during regular business hours.

4.1.17 Multiple Uses in a Building

Where any land or building is used for more than one purpose, all provisions for this By-law relating to each use shall be satisfied with the exception of residential development in the General Commercial (C1) Zone. Where there is conflict, such as in the case of lot size or lot frontage, the higher or more stringent standard shall prevail.

4.1.18 Non-Conforming Uses and Structures

- a) A non-conforming structure, a non-conforming use of land, or a non-conforming use in a structure may continue if it exists and is lawfully permitted at the effective date of this By-law, subject to the provisions of Sections 238 to 242 of the *Municipal Government Act*.
- b) A non-conforming development shall not recommence if it has been discontinued for one year or more.

4.1.19 One Main Building on a Lot

More than one main building may be permitted on a lot within the:

- a) General Commercial (C1) Zone;
- b) Highway Commercial (C2) Zone;
- c) Industrial (M) Zone;
- d) Medium Density Residential (R3) Zone; and
- e) High Density Residential (R4) Zone subject to the following requirement:

The minimum distance between the buildings shall be 20 ft (6.10 m), or one-half the height of the highest abutting wall, whichever is greater.

4.1.20 Parks and Open Space

Parks, Playgrounds, Open Spaces and Community Gardens shall be permitted in any zone.

4.1.21 Permitted and Prohibited Uses

- a) No person shall hereafter use any land, or erect, alter, or use any building or structure unless a development permit has been issued, and no development permit shall be issued unless all provisions of this By-Law are satisfied; and
- b) For the purpose of this By-law, if a use is not listed as a permitted use in a zone, or it is not accessory to a permitted use within the zone, it shall be deemed to be a prohibited use in that zone, except where the use is a non-conforming use under Section 238 of the *Municipal Government Act*.

4.1.22 Permitted Encroachments into Yards

Except for accessory buildings, every part of any yard required by the By-Law shall be open and unobstructed by any structure excluding fences and the structures listed in Table 4.1:

Table 4.1 Permitted Encroachments into Yards

Structure	Impacted Yard	Maximum Encroachment
Sills, belt courses, cornices, eaves, gutters, or chimneys	Any yard	2 ft 0.61 m
Window Bays	Front and Rear	3 ft 0.91 m
Fire Escapes and Exterior Staircases	Rear and Side	3 ft 0.91 m
Balconies	Any yard for residential buildings	3 ft 0.91 m
Wheelchair Ramps	Any yard	3 ft 0.91 m

4.1.23 Public Utilities

Public and private utilities shall be permitted in any zone provided that such use conform to the applicable lot standards of that particular zone.

4.1.24 Refuse Storage

All development except for Single Unit Detached Dwelling and Two Unit Dwelling must provide space for the storage of recycling, compost, and garbage receptacles that shall:

- a) not be situated within the required front yard unless it is situated within a wholly enclosed structure; and
- b) not occupy any space that is required for parking or amenity space in relation to a development.

4.1.25 Side Yards on Corner Lots

Notwithstanding anything else in this By-law, on a corner lot in any zone, except the General Commercial (C1) Zone, no part of any building or accessory building shall be erected closer to the flankage lot line than 10 ft (3.05 m).

4.1.26 Special Criteria for Development within Areas Subject to Flooding

No Development Permit shall be issued in any zone that is in the area shown as Floodway Overlay or Floodway Fringe Overlay on the Environmental Constraints Overlay Map, Map 3 of the Municipal Planning Strategy, unless the requirements of Part 10 of this By-law are met.

4.1.27 Site Plan Approval

Site Plan Approval is a tool permitted under the Municipal Government Act that relies entirely upon the development officer to evaluate development proposals based on their compliance with a predetermined set of objectives that are written out in the planning documents. The benefit of site plan approval is that it does not require a public hearing or a lengthy approval process compared to the Development Agreement process which can be lengthy and expensive to process, resulting in a legal contract between the developer and the Town. The Town has opted to allow certain development by Site Plan approval as provided for within this Bylaw.

The following developments shall be considered by Site Plan Approval in accordance with Sections 231-233 of the Municipal Government Act, and Section 5.1.12 of this Bylaw.

- a) New structures or additions in a (R3), (R4), (C1), (C2), (C3), (M1), and (CR) Zone, when such developments abuts a Single Unit Dwelling (R1) Zone or a One and Two Unit Dwelling (R2) Zone;
- b) Day Care Centers to a maximum of 14 persons in the (R1), (R2) and (R3) zones; and
- c) Multi-Unit Residential Development up to 50 units per acre in the (C1) zone.

4.1.28 Special Occasion Uses

Nothing in the By-law shall prevent structures erected for special occasions or holidays such as, concerts, open-air seasonal markets, midways, circuses, fairs or festivals provided that no such use remains in place more than 14 consecutive days and such building, structure or sign remains in place no more than 10 days following the end of the special occasion.

4.1.29 Telecommunication Facilities

The Town of Kentville recognizes that Industry Canada has the ultimate authority over the placement of radio communication facilities but it has been Industry Canada's practice to work with municipal governments to ensure that local concerns are addressed in the approval process. Council therefore shall:

- a) Strongly discourage Telecommunication Towers in all Residential Zones and the General Commercial (C1) Zone; and
- b) Encourage the co-location of telecommunication infrastructure;

4.1.30 Temporary Construction Uses

Nothing in this By-law shall prevent the erection of temporary buildings or scaffolds or other structures incidental to any construction in progress until such construction has been finished or has been discontinued for a period of 60 days.

4.1.31 Transit Shelters

Transit Shelters shall be permitted in every zone, subject to obtaining a development permit. The Development Officer shall only issue a development permit for a Transit Shelter upon being satisfied of the following:

- a) The Applicant has in writing, consent of Kings Transit Authority, on whose regularly scheduled route the Transit Shelter is to be located; and
- b) The Traffic Authority of the Town, has certified that the proposed location of the Transit Shelter does not constitute a hazard to public safety.

4.1.32 Variances

- a) Notwithstanding anything in this By-law, a Development Officer may grant a variance subject to Section 235 of the Municipal Government Act. Specifically, the Development Officer may vary:
 - i. the percentage of land that may be built upon;
 - ii. the size or other requirements relating to yards;
 - iii. the lot frontage; and/or
 - iv. the lot area.
- b) A Development Officer may grant a variance in one or more of the following Land Use By-law requirements:
 - i. number of parking spaces and loading spaces required;
 - ii. The ground area and height of a structure;
 - iii. The floor area occupied by a home based business; and/or
 - iv. The height and area of a sign.

4.2 Parking and Loading

4.2.1 General Requirements

- a) For every building or structure to be erected or enlarged, or for which application for a development permit involving a change of use is made, off-street parking having unobstructed access to a public street shall be provided and maintained in accordance with Table 4.2;
- b) Notwithstanding Section 4.2.1(a) minimum parking requirements shall be waived in the General Commercial (C1) Zone for all new development, excluding any residential component. In this instance, only the minimum off-street vehicular parking spaces for the residential component of the development shall be required;
- c) All off-street parking shall be provided on the same lot as the use of building for which it is required;
- d) Notwithstanding Section 4.2.1(c), in any Commercial/Industrial zone, off-street parking for Commercial purposes may be located on a different lot than the use or building in question provided that the parking area is not located more than 300 ft (91.44 m) away from the subject building, and the land owner provides written notice of a shared parking arrangement to the Development Officer; and
- e) Minimum off-street parking requirements shall not apply to any use which was established before the effective date of this By-law.

4.2.2 Calculating Parking Requirements

- a) When calculating parking requirements:
 - i. the parking requirement for development consisting of multiple uses shall be determined by totaling the calculated parking requirement for each individual land use;
 - ii. only the new usable floor area or new seating capacity shall be included in the parking calculations for a development proposal that includes the expansion of an existing use;
 - iii. for the purposes of this section, floor area shall not include washrooms, stairs, utility rooms, common hallways, or elevators;
 - iv. where a parking calculation results in a fraction of a space, the final number of required parking spaces shall be rounded up to the next whole number; and
 - v. where a development contains a use(s) that is missing from Table 4.2, the Development Officer shall identify the most comparable use and parking ratio to determine the minimum parking requirements.

Table 4.2 *Parking Requirements*

Land Use	Parking Requirement
<i>Residential Land Use</i>	
Dwelling Units (<4 dwelling units)	1 parking space per dwelling unit
Multi-Unit Dwellings (>4 dwelling units)	1.25 parking spaces per dwelling unit
Multi-Unit Dwellings in the (C1) Zone	0.5 per dwelling unit
Home Based Business	1 space in addition to the space required by the dwelling unit
Bed and Breakfast	1 space per rental units in addition to the space required by the dwelling unit.

Senior Citizen Apartment	1 parking space for every 2 dwelling units
Community Home/Residential Care Facility	2 spaces + 0.5 spaces per resident

Commercial Land Use

Animal Hospital/Veterinary	1 space per 200 ft ² (18.58 m ²)

4.2.3 Standard for Parking Areas

Where parking facilities for more than four vehicles are required or permitted:

a) Surfacing:

- i. The parking shall be maintained with a stable surface that is treated to prevent the raising of dust or loose particles, except in the General Commercial (C1) Zone where a parking area shall have a permanent hard surface;
- ii. Where a permanent hard surface is provided:
 - a. Individual parking spaces and circulation routes for vehicles, bicycles and pedestrians shall be clearly marked and maintain; and
 - b. A storm water management plan shall be required and approved by the Town Engineer

b) Site Layout

- i. Where a driveway provides access to a parking area the approaches and driveways shall be defined by a curb of concrete or rolled asphalt;
- ii. The lights used for the illumination of the parking lot or parking station shall be so arranged as to divert the light away from the streets, adjacent lots and buildings;
- iii. The location of approaches or driveways shall not be closer than 50 ft (15.24 m), from the limits of a right-of-way of a street intersection unless approved by the Towns Traffic Authority;
- iv. The width of a driveway leading to a parking area or aisle in a parking area, shall be a minimum of 10 ft (3.05 m), if for one way traffic, and a minimum of 18 ft (5.49 m), if for two way traffic, and the maximum width of a driveway shall be 25 ft (7.62 m);
- v. Accessible parking spaces are provided in a convenient location, as close to the building primary entrance as possible and in accordance with the National Building Code;
- vi. Accessible parking space shall be a minimum width of 13 ft (3.96 m) by a length of 18 ft (5.49 m), however a parallel accessible parking space shall be 23 ft (7.01 m) in length;
- vii. All parking areas must make provision for access to permit ingress and egress of motor vehicles to the street or highway by means of driveways, aisles or manoeuvring areas;
- viii. Where a commercial or industrial parking area abuts an existing residential use, such commercial or industrial parking areas shall be screened by an opaque fence that is at least 8 ft (2.44 m) high or an evergreen hedge that will form a solid visual barrier at least 8 ft (2.44 m) high following one growing season; and
- ix. The Traffic Authority may require a traffic impact study for large developments to determine location and design elements of parking areas

c) Landscaping

- i. Landscaped strip at least 5 ft (1.52 m) wide shall be provided and maintained between the parking area and any abutting public right-of-way excepting any driveways or pedestrian walkways;

d) Abutting Zones

- i. A parking area in a Residential Zone shall be situated in a side or rear yard;
- ii. A parking area on a property within or abutting a Residential or Park Zone shall be:
 - a) separated from an abutting property by a landscaped buffer that is at least 10 ft (3.05 m) wide; or
 - b) separated from an abutting property by a landscaped buffer that is at least 6 ft (1.83 m) wide provided the parking area is also screened by an opaque fence that is at least 5 ft (1.52 m) high or an evergreen hedge that will form a solid visual barrier at least 5 ft (1.52 m) high following one growing season.

e) Miscellaneous

- i. Snow storage is not permitted to occupy any area required for parking or loading;
- ii. A structure, not more than 15 ft (4.57m) in height and not more than 50 ft² (4.65 m²) in area, may be erected in a parking area for the use or parking lot attendants.

4.2.4 Parking Space Specification

All vehicular parking spaces shall be designed and maintained in according to the following specifications:

Table 4.3 *Parking Space Specifications*

Standard Parking Angle	Minimum Space Width	9 ft	2.74 m
	Minimum Space Length	18 ft	5.49 m
	Minimum Space Depth	18 ft	5.49 m
75° Parking Angle	Minimum Space Width	9 ft	2.74 m
	Minimum Space Length	18 ft	5.49 m
	Minimum Space Depth	19 ft	5.79 m
60° Parking Angle	Minimum Space Width	9 ft	2.74 m
	Minimum Space Length	18 ft	5.49 m
	Minimum Space Depth	20 ft	6.10 m
45° Parking Angle	Minimum Space Width	9 ft	2.74 m
	Minimum Space Length	18 ft	5.49 m
	Minimum Space Depth	18 ft	5.49 m
Parallel Parking Angle	Minimum Space Width	9 ft	2.74 m
	Minimum Space Length	22 ft	6.71 m
	Minimum Space Depth	9 ft	2.74 m

4.2.5 Standards for Loading Spaces

- a) Any manufacturing, storage, warehouse, department store, retail store, wholesale store, market, freight or passenger terminal, hotel, hospital, mortuary or other similar use that involves the frequent shipping, loading or unloading of persons, animals or goods that occupies a floor area in

excess of 2 500 ft² (232.26 m²) shall be required to provide one off-street loading space for every 30 000 ft² (2 787.09 m²) or fraction thereof of building floor area;

- b) Each loading space shall be at least 12 ft (3.66 m), by 30 ft (9.14 m) with a minimum of 15 ft (4.57 m) height clearance;
- c) The provision of a loading space for any building with less than 2 500 ft² (232.26 m²), shall be optional;
- d) No such loading spaces shall be located within any yard which abuts a Residential, Park and Open Space, or Institutional Zone;
- e) Loading space areas, including driveways leading thereto, shall be constructed of and maintained with a stable surface which is treated so as to prevent the raising of dust or loose particles; and
- f) Ingress and egress, to and from the required loading space areas shall be provided by means of unobstructed driveways of a minimum width of 12 ft (3.66 m), if for one-way traffic or a minimum width of 24 ft (7.32 m), if for two-way traffic.

4.2.6 Bicycle Parking Spaces

When off-street bicycle parking spaces are provided, they shall be provided and maintain in accordance with the following requirements:

- a) Bicycle parking spaces shall be located at the same grade as the sidewalk or parking area, or at a location that can be accessibly reached;
- b) Bicycle parking spaces shall be permitted in any yard; and
- c) Bicycle parking spaces shall not obstruct pedestrian or vehicular traffic.

4.2.7 Vehicle Stacking for Drive-Thru Uses

- a) Businesses providing Drive-Thru services including but not limited to banks, automatic car-wash facilities, and restaurants, shall provide stacking for vehicle queuing in accordance with the requirements set out in Table 4.4 or as otherwise required by the Traffic Authority; and
- b) All vehicle queuing shall be solely dedicated to queued vehicles and shall not interfere with any other vehicle movement on site including parking stalls, aisles, access and egress to and from the site.

Table 4.4 *Vehicle Stacking Requirements*

Use	Stacking Requirement
Fast Food Restaurant Drive-Thru	Stacking for 4 cars between the order board and the pick-up window and stacking for 6 cars behind the order board. Total queuing length shall not be less than 200 ft (60.96 m)
Bank Drive-Thru and Other Dispensaries	Stacking for 5 cars
Coffee Shop Drive Thru	Stacking for 4 cars between the order board and the pick-up window and stacking for 10 cars behind the order board. The Traffic Authority may require a traffic impact statement
Car Wash	Stacking for 3 cars free and clear of the service bay/stall

4.2.8 Parking Requirements in Commercial General (C1) Zone

Notwithstanding the provisions of Part 4.2.2, Table 4.2, parking in the Commercial General (C1) Zone shall be provided according to the following schedule:

Table 4.5 Commercial General (C1) Zone Parking Requirements

Residential Uses	0.5 spaces per unit
All Other Uses	1 space per 400 ft ² (37.16 m ²) of floor area

4.2.9 Cash-In-Lieu of Required Parking

Notwithstanding the provisions of Part 4.2.2, Table 4.2 of this Land Use By-law, and in accordance with Policy GD-27 Council may within the Commercial General (C1) Zone, accept cash-in-lieu of the required onsite parking, or a combination of parking spaces and cash for the balance of the required parking from the developer. The cash-in-lieu contribution shall be calculated in accordance with the following formula:

$$C = [S + (L \times 280)] \times R$$

where:

C	=	developer's contribution
S	=	structural cost of a single parking space to be set by Council by resolution on an annual basis

PART 10 Environmental Constraints Overlays

10.1 Overlay Purpose

The purpose of the Environmental Constraint Overlays is to restrict land uses and development in areas which have an increased risk of flooding, erosion, slope failure or other unique features which cause them to be environmentally sensitive to development pressures. The Environmental Constraint Overlay Map, Map 3 of the Municipal Planning Strategy, identify lands at risk of flooding and/or erosion due to steep slopes based on the best information available to the Town. The Town does not make any representations about the accuracy of this information or provide any assurances that flooding or erosion risks will not exceed these predictions or occur in other areas. Property owners are responsible for all risks associated with development, the effectiveness of flood resistant measures, and the impacts of development on neighbouring properties.

10.2 Steep Slopes > 25 % (SS) Overlay

10.2.1 Permitted Uses

- a) Conservation and Related Projects
- b) Passive Recreation
- c) Walkways and Trails
- d) Public Works and Utilities

10.2.2 Steep Slope (SS) Overlay Requirements

Table 1.1 (SS) Overlay Requirements

Minimum Lot Area	0 ft ²	0 m ²
Minimum Lot Frontage	0 ft	0 m

10.2.3 Permitted Structures

- a) No development permit shall be issued in the Steep Slope (SS) Overlay for the construction of any permanent structures except those associated with Public Works or Utilities constructed by the Town of Kentville.
- b) Notwithstanding 10.2.3(a) a development permit may be issued for a use permitted within the underlying zone subject to Part 4.1.4

10.3 Floodway (FW) Overlay

10.3.1 Permitted Uses

- a) All existing structures and uses
- b) Walking Trails
- c) Passive Recreation

10.3.2 Permitted Structures

No development permit shall be issued in the Floodway (FW) Overlay for the construction of any new permanent structures except for the following:

- a) accessory structures with a floor area of 215 ft² (19.97 m²) or less in conjunction with any use permitted by the underlying zone provided the applicant agrees to accept all risks and not hold the Town of Kentville responsible for any damages incurred in the event of a flood; or
- b) expansion or rebuilding of existing structures, subject to the underlying zone, shall:
 - i. where there is an increased risk of flooding, implement adequate flood resistant techniques as designed by an engineer licensed to practice in Nova Scotia; and
- c) Notwithstanding Section 10.3.2(a), accessory structures with a maximum building footprint of 215 ft² shall be exempt from flood resistant requirements if not serviced with electricity.

10.4 Floodway Fringe (FF) Overlay

With new technology that is available, the Floodway Fringe (FF) Overlay was created and applied to lands that were not previously identified as Flood Risk Areas. In 2017 the Applied Geomatics Research Group (AGRG) generated this Floodway Fringe (FF) Overlay by using a one dimensional hydrodynamic model of the Cornwallis River to simulate flooding under 1 in 100 year return period flood scenarios. Flooding was simulated using rainfall intensity, Cornwallis River flow rates, Digital Elevation Models and storm surge levels from a previous report (CBCL Limited, 2015). This overlay is intended to provide flexibility regarding development in recognition of the pre-existing development patterns and the hardship that strict limitations would place on property owners.

10.4.1 Permitted Uses

Permitted uses in the Floodway Fringe (FF) Overlay shall include all uses permitted in the underlying zones and applicable zone requirements with the following exceptions:

- a) residential institutions such as hospitals, senior citizen homes, homes for special care and similar facilities where flooding could pose a significant threat to the safety of residents if evacuation became necessary; and
- b) any use associated with the production of hazardous materials.

10.4.2 Floodway Fringe (FF) Overlay Requirements

In the Floodway Fringe (FF) Overlay, the zone requirements of the underlying zones shall apply.
